OBJECTIVE

Enthusiastic Software Engineering undergraduate with hands-on experience in full-stack development, IoT, AI and computer vision applications. Proven ability to lead university projects and teams while delivering practical, real-world solutions. Seeking an internship to apply technical skills, gain industry exposure and contribute to innovative software projects

EDUCATION

SLTC Research University , <i>BSc (Hons) in Software Engineering</i> Faculty of Computing & IT	2023 – 2027
Anuradhapura Central College , <i>GCE Advanced Level - Physical Science Stream</i>	2012 – 2020

TECHNICAL SKILLS

Programming Languages

Python, Dart, Java, JavaScript, C/C++, SQL

Databases

MySQL, SQLite, Firebase Firestore, Supabase

IoT & Embedded Systems

ESP32, Arduino, Embedded C

Tools & Collaboration

Git, GitHub, GitHub Flow, Jira, Figma, Arduino IDE, Android Studio

Web & Mobile

HTML, CSS, Flutter (Dart), React.js

AI / Machine Learning

Scikit-learn, OpenCV, Random Forest, XGBoost

Data, Cloud & DevOps

Power BI, Docker (Fundamentals), AWS EC2 (Fundamentals)

PROJECTS

DevInsight - AI-Powered GitHub Analytics Platform, *Team Lead* 2026 – Present

Tech Stack: Python, Scikit-learn, XGBoost, GitHub API, Flutter Web, Supabase

- Developing an AI-driven analytics platform to address the challenge of understanding software project health by analyzing GitHub repository activity and CI/CD data.
- Leading the implementation of feature engineering and machine learning pipelines using Random Forest and XGBoost models to identify software project risks and generate actionable insights through a Flutter Web dashboard.

LankaSmartMart - Flutter Mobile Shopping App, *Team Lead* 2025

- **Tech Stack:** Flutter, Dart, Firebase Authentication, Cloud Firestore, SQLite, Firebase Cloud Messaging
- Led the development of a cross-platform grocery shopping application to provide users with a secure and seamless digital shopping experience.
- Implemented Firebase Authentication, real-time Cloud Firestore synchronization, and Firebase Cloud Messaging for secure user management, live data updates, and notifications.
- Designed an offline-first shopping cart system using SQLite with automatic cloud synchronization logic to maintain user data during network interruptions.

MIMO - AI-Powered Smart Study Robot, Team Lead

2025

- **Tech Stack:** C++ (ESP32), Python, OpenCV, OpenAI API, Cloud Speech-to-Text/Text-to-Speech
- Led the development of an AI-powered smart study assistant robot to enable interactive learning through voice-based communication and computer vision capabilities.
- Integrated ESP32 hardware with OpenAI API and cloud speech services to provide real-time conversational interaction and intelligent responses.
- Developed an OpenCV-based drowsiness detection module and optimized hardware-software performance to improve response latency and overcome embedded system resource limitations.

CERTIFICATIONS

- Building AI Solutions Using Advanced Algorithms and Open Source Frameworks - IBM SkillsBuild
- Enterprise Design Thinking Practitioner - IBM SkillsBuild
- Microsoft Applied Skills: Get Started with Classes, Properties, and Methods in C# - Microsoft
- AI Concepts for Developers and Technology Professionals - Microsoft Learn
- Work with Generative AI Models in Azure Machine Learning - Microsoft Learn
- Python for Beginners - University of Moratuwa

LEADERSHIP & ORGANIZATIONS

Student Interactive Society, SLTC, Faculty Representative (Faculty of Computing & IT) 03/2026 – Present
Liaises between students and faculty on academic and administrative matters.

Student Interactive Society, SLTC, IT Batch Representative (2027A Batch) 04/2023 – Present
Represent the 2027A IT batch and coordinate student activities.

Get Sync Club, SLTC, Director of Research and Analytics 2025 – 2026
Directs research and analytics initiatives supporting club activities and decisions.

IEEE WIE SBAG of SLTC (InspHER v3.0), Promotion Team Head 2025
Led promotional strategy and outreach for a university-wide women-in-engineering event.

IEEE Computer Society SBC of SLTC (Codemania v5.0), Technical Team Member 2025
Supported event infrastructure and on-site technical coordination.
